Although the grant for an extension of time for one month might under ordinary circumstances be sufficient for the preparation and filing of a response to the pending Action, such an extension would extend the response date to July 11, 1982. Undersigned counsel, however, will be out of the United States from the first week of June and will not return to his office until approximately July 12. Accordingly, the grant of a one-month extension would place the due date within a period in which counsel will be absent from his office. Under the circumstances, the grant of a two month extension of time is believed necessary and warranted.

A copy of this Request and a stamped, self-addressed envelope are enclosed for the convenience of the Patent Office in replying.

Respectfully submitted,

CURTIS, MORRIS & SAFFORD, P.C.
